

# Elevating Mobile and Web Solutions from Development to Delivery

#### Case Study For KARAVELO

# KARAVELO

Karavelo is a SAAS Platform which simplifies delivery logistics throughout the entire delivery journey. It enables delivery service partners (DSP) to ship from anywhere to everywhere, from first to mid to last.

#### PROJECT BRIEF

- Karavelo is a SAAS platform which simplifies delivery logistics
   throughout the entire delivery journey. It enables leading brands to
   ship from anywhere to everywhere, from first to mid to last.
- Karavelo will track your DAs onboarding progress in a centralized location, keep them engaged throughout the process and send them updates.
- Karavelo will automatically generate invoices for you and send them to your DA's. The system will notify you of your overdue invoices so they get processed.
- Karavelo will track your DAs performance overtime and provide insights for areas of improvement.

UX: UI · Product

# PROJECT FEATURES

Karavelo is a DSP's all-in-one toolkit. Stop using spreadsheets and multiple tools and start managing your delivery operations with one tool.

- + Easy DA onboarding tracking
- ✦ Audit & Compliance
- + Invoicing & Payments
- ✤ DA Rostering and Scheduling
- + Performance tracking and insights
